## CHAUTAUQUA TO SET NEW RECORD

Most Costly as Well as Unique and Entertaining Program Ever Offered Ready For This Year.

### MUSIC OUT OF THE ORDINARY

Besides Weber's Band, Other Well Known Organizations Will Appear—Celebrated Lecturers.

Announcement was made today of the program for the annual Rush county chautauqua which will be held this year in the coliseum at the city park August 2 to 9 inclusive. The announcement of the program has been delayed this year because it has been difficult to arrange for a speaker the closing day.

The committee, however, believed today that it says with some certainty that Bishop Will F. Shepherd of Kansas City would lecture afternoon and evening, although the contract has not yet been made. He is a bishop in the Methodist church and is a renowned platform lecturer.

The big outstanding feature of the program this year, one that is always attractive, is John Weber's band. Patrons of the chautauqua here have been clamoring for a big band for several years and last year they were given their first treat when Innes' organization was here. The band was easily the most popular attraction ever at the chautauqua. Weber's band is equally as good, if not better. It will give two concerts afternoon and evening and will be the sole attraction that day.

The program is "long" on music this year. The committee never has offered such a galaxy of prominent and successful musical organizations as this year. More money will be expended in this department than ever before. In fact, the program as a whole will cost more this year than ever in the history of the chautauqua in Rush county.

Dr. Herbert L. Willett of the University of Chicago will be the opening Sunday lecturer. Dr. Willett has been pronounced by critics as "the most attractive and scholarly lecturer on literature and biography of the Bible to be found anywhere in America." He is a charming speaker with a clear, resonant voice, splendid appearance, eloquent language and strong reasoning qualities. He is professor of Semitic languages and literature in the University of Chicago and pastor of the Memorial Church of Christ in Chicago.

The prelude the opening Sunday will be furnished by Miss Martha Marr Hogsett of this city, who has had experience on the Lyceum platform, Miss Leona Thomas of Arlington, a gifted violinist and Helen Ax Brown, a talented soloist of Valparaiso.

Monday Carl Lampert and the Schumann Quintet will come for two days. This musical organization will furnish the prelude to all programs during the second and third day of the chautauqua and will give a complete concert Monday night.

Every member of this organization is an artist of ability, a soloist of rare worth. The company is composed of the following: Karl Lampert, violinist, leader; Nicholai Zedeler, cellist; Frederick U. Haines, concert pianist; Norman Weiler, second violin; Miss Elsie Haines, organist.

Monday afternoon Albert Edward Wiggam, known the United States

## PROGRAM TO BE ANNOUNCED

Will be Completed by Tomorrow For D. A. R. Exercises Thursday.

The program for the flag day exercises which will be held under the auspices of the Rushville chapter of the Daughters of the American Revolution Thursday afternoon at two-thirty o'clock at the Graham high school building will be announced tomorrow. The program will be given in connection with the awarding of prizes of twenty dollars in cash for the best essays on American history. The public is cordially invited to attend.

## NARROWLY MISSED BEING HIT BY TRAIN

Presence of Mind of Young Bruce Carr Prevents Automobile Accident at Pennsylvania.

### MACHINE IS RUN INTO A YARD

Mrs. Owen L. Carr and sons, Bruce and William, had a close call from death last night at the Main street crossing of the Pennsylvania railway. They were riding in the Carr automobile and were going south in Main street. Bruce Carr, who was driving the machine, failed to hear or see the northbound passenger train until he was almost upon the track. To avoid being hit he turned the machine suddenly to the right and went on the lawn at the home of Alvin Hinchman.

This was all that saved the party as the machine could not have been stopped, nor could it have been driven across the track in time to avoid being hit. The presence of mind of young Carr was all that saved them from a horrible accident. All were badly frightened as were the people in that section of the city that witnessed the near accident.

## DESERTED 3 DAYS AFTER MARRIAGE

Mrs. Edith Roots Tells Court Pathetic Tale of Hardship and is Granted Divorce.

### NO DECISION IN RAMSEY CASE

Yesterday was divorce day in the circuit court. Judge Megee heard two cases, granting one and taking the other under advisement. Mrs. Edith Roots was given a divorce from John B. Roots, and \$100 alimony. This case was heard late yesterday afternoon. Mrs. Roots alleged cruel and inhuman treatment. Her story was one of the most pathetic told in the local court for some time. According to Mrs. Roots they were married just three days when he deserted her. She did not see him again until the funeral of their baby. On this occasion, according to Mrs. Roots, he compelled her to walk home from the cemetery. In the complaint she demanded \$450 alimony.

Judge Megee took the divorce case of Oliver Ramsey against Agnes Ramsey under advisement.

Alonzo Whisman has filed petitions in the circuit court for the appointments or guardians for Pauline and Warren Whisman.

## ELKS MAKE GOOD THEIR PROMISE START CAMPAIGN FOR PLAYGROUND

Pay Handsome Reward When Trophy to be Awarded in Ball Game Friday is Returned.

### THIEVES NEVER TO BE KNOWN

Associate Justice of the Peace Appointed and Committee on Cool Air is Named.

True to their promise, the Elks today refused to make public the names of the sneakthieves who Sunday night stole from the window of Betker's Shop the cabinet containing the trophy to be awarded the winning baseball team in the game at the ball park Friday afternoon, and who returned it to Harrie Jones, chairman of the committee on arrangements, last midnight.

The Elks kept their word, also, in regard to reward. It was paid without a whimper and no one will be any wiser than they are right now concerning the theft. The Elks are happy now that the troublesome matter is settled, but they figure they are not half as tickled as the crowd that sees the ball game will be.

The committee is dubious of Betker's Shop and will not take any more chances with him. At a meeting held in the office of Chairman Jones last night, it was determined by unanimous vote to place the cabinet in the window of Gunn Haydon's hardware store. It was the opinion of the committee as well as others that a hardware store would be more secure against the class of citizens which perpetuated the dastardly trick of Sunday night.

Treasurer Charles Brown reported today that a new supply of tickets had been obtained so as to meet the demands. The tickets have been selling far beyond the hopes of the most optimistic of the Elks crowd. Tickets may be purchased at either Brann's grocery store or Betker's Shop.

Justice of the Peace Wolfe has received word that he will be compelled to be out of the city on Thursday and it is just possible that he may not be able to return until Friday afternoon. In that event, the committee on arrangements elected Claude Cambern associate Justice of the Peace. So it is sure the boys will get all that is coming to them.

All of Rushville is showing a remarkable amount of enthusiasm over helping to make the "BIG DAY" one long to be remembered by turning out en masse and boosting the attendance and in helping the Elks to secure some needed change. The committee consisting of Dr. W. S. Coleman, L. M. Sexton and Harry Beale, which is visiting all of the business houses and shops, reports that almost every place with two exceptions, have agreed to close from three to five next Friday afternoon.

More "cops" have been appointed some real for sure detectives who will be in plain clothes for the purpose of carrying out some additional orders of Justice Wolfe's court. The Colonel refuses to give any details of this last move, but says he will let the folks know the day of the game. These very astute gentlemen will assist Constable Cavitt and sleuths, L. W. Henry, E. C. Moore, C. P. Mauzy, Lee C. Thomas and Lee Pyle.

A reception committee to welcome the visitors and make them feel that it is good to be present, and which promises to provide plenty of "cool

## POSTOFFICE IS ROBBED

Robbers Get \$500 in Stamps and Cash at Gaston Today

(By United Press.)  
Muncie, Ind., June 16.—The safe in the Gaston postoffice ten miles west of here was cracked by robbers shortly after midnight and \$500 in cash and stamps was taken. Entrance was gained by prying open the front and rear doors. Several persons heard the loud nitroglycerin reports shortly after midnight but, made no investigation.

## STATE DEPARTMENT IS PUT UNDER FIRE

Aids New York Bankers in Collection of Fraudulent Claims Against Nicaragua is Charge.

### FORCES BOND REDEMPTION

(By United Press.)

Washington, June 16.—Serious charges that the state department had been actively aiding New York bankers in collecting fraudulent claims against Nicaragua were made in a resolution introduced today by Senator Smith of Michigan. He declared the seizure of ports by American marines and domination of customs houses enabled bankers to force the present Nicaraguan government to redeem at par with enormous profits to the bankers bonds issued illegally and that the collection with the aid of the state department is a fraud on the Nicaraguan people.

"The present administration of Nicaragua," the resolution states, "has been maintained for two years by the presence of American marines in the capitol in the guise of the legation guard and in defiance of the Nicaraguan people."

## P. J. LYNCH NAMED FOR CONGRESSMAN

Newcastle Man is Unanimous Choice of Republicans Who Meet at Cambridge City.

### HIGH ENTHUSIASM PREVAILS

(Special to the Daily Republican.)

Cambridge City, Ind., June 16.—Patrick J. Lynch of Newcastle was unanimously nominated for congress from the sixth district at the Republican convention here this afternoon. The greatest enthusiasm prevailed and standing room was at a premium in the theater where the convention was held.

Lynch's name was the only one presented to the convention and the nomination was by acclamation. Lynch is the present district chairman and is a very aggressive Republican. It was felt by the convention that he would make a very active campaign in behalf of the Republican party.

Hugh Th. Miller of Columbus, Republican candidate for United States senator from Indiana, spoke this morning, but the chief speech of the convention was made this afternoon by John McCordle of Indianapolis. Gurley Brewer of Indianapolis spoke.

## REBELS ARE DRIVEN BACK

Defeat of Mexican Constitutionnalists by Federals is Chief Washington Topic

### VILLA GOES TO THE RESCUE

Carranza Will Accept Word of Mediators as Final Under Certain Conditions

BY JOHN E. NEVIN.

(U. P. Staff Correspondent.)  
Washington, June 16.—Interest here today centered in the fighting near Zacatecas, Mexico. Reports of a complete Rebel defeat are not confirmed, but it is certain that the Constitutionalists' forces have been forced back.

Conditions immediately following the battle of Torreón have been duplicated and Villa is now rushing to the scene with his fresh veterans of the north. If he can retrieve the situation, it will have a telling effect in Carranza's favor on the Niagara Falls conference.

Carranza headquarters here very frankly say that Carranza will accept the word of the mediators as final; will neither grant an armistice or an agreement to mediate internal affairs and will depend on the United States standing out for acceptance of a peace plan in which he can take part.

Before going to the cabinet meeting today, Secretary Bryan said: "I consider that satisfactory progress is being made at Niagara. Speed is out of the question. I have consistently refused to dignify sensational newspaper stories by discussing them."

## EVIDENCE NOT SUFFICIENT

For This Reason Squire Dismisses Malicious Trespass Suit.

The case of Ota E. Newhouse against J. R. Ward and son Roscoe Ward, charging malicious trespass, was dismissed in the court of Squire James Kratzer this afternoon because of the lack of evidence. Newhouse charged that Ward and his son entered on his premises, broke the lock on his barn and took out a calf which belonged to them. The calf had strayed on to the road and Newhouse had taken it up, it is said.

and have every style buggy known to the best vehicle builders in the country. We have large, roomy buggies that are low down and easy to get in and out of and then we have them for the young folks (we don't mean baby carriages) and middle aged people. In fact, we have buggies to meet every requirement of all kinds of buggy users. There is no use for us to tell you of their quality, perhaps you have already found that out by using one, or if not you can ask your neighbor and he will tell you how they wear. You take no chances when you buy from us because we guarantee every buggy we sell and guarantee it an honest one, and one that is always good. We believe that an honest guarantee gives us the good will of our customers and when a merchant loses the good will of his customers he is flirting with the commercial undertaker. ## C. H. & D. QUIZ SEEMS CERTAIN

Interstate Commerce Commission  
Expects to Show G. W. Perkins  
Was Agent of Morgan.

IN PURCHASE MADE BY B. & O.

Testimony Given Recently Showed  
\$50,000,000 was Paid for C. H.  
& D.—Perkins Star Witness

Washington, June 16.—The rumor that George W. Perkins will be summoned as star witness before the Interstate Commerce Commission soon is gaining strength here, although officials of the Commission refused to substantiate the report with any authentic statement. They contend that the Commissioners have not conferred and outlined any definite course which will be pursued in the proposed investigation of the financing connecting the Pere Marquette Railroad with the purchase of the Cincinnati, Hamilton and Dayton Railroad by the Baltimore and Ohio. However, it is predicted by those in close touch with the situation that Perkins will figure prominently in the inquiry which is made.

Commission officials expect to show that Perkins acted in accord with the wishes and dictates of J. Pierpont Morgan in the negotiations preliminary to the purchase of the Cincinnati, Hamilton and Dayton by the Baltimore and Ohio. Testimony given recently before the Commissioners showed that \$50,000,000 was paid by the Baltimore and Ohio in this sale.

That a thorough inquiry will be made into the finances of the three roads to ascertain in what effect the banking interests had in the sale is a known fact. Just when the intended inquiry will be commenced is indefinite. Special Counsel Brandeis, who will probably conduct the investigation, is now ill, and until he is able to appear at his office nothing further regarding the contemplated quiz will be done. It is expected that summonses for witnesses will be returned this week.

## HURTY TO WRITE ANOTHER BOOK

Will Be on Plain Foods and Plain  
Cooking as Seen by Indiana  
Health Commissioner

FIRST EFFORT WAS SUCCESS

Baby Book has Been Widely Read  
not Only in This Country but  
in Europe

(By United Press.)  
Indianapolis, June 16.—Encouraged by the enthusiastic reception given the "Indiana Mothers, Baby Book," Dr. John N. Hurty, state health commissioner, announced today that the state board of health would in the fall issue another book entitled "Plain Foods and Plain Cooking." The book will be written by Dr. Hurty, who as a chemist is an accomplished cook. It will deal with plain foods from the Indiana farms almost entirely, and will be valuable for the recipes. "Of course we will include prunes and other staples, though they aren't grown in Indiana," said Hurty.

The idea running through the whole book, as Dr. Hurty expressed it, will be "to nourish the body and provide gustatory enjoyment." Dr. Hurty asserts that just as much pleasure can be had from eating well-cooked plain foods as from eating the rich food that is dangerous to the health.

The Baby Book has been met with open arms in Indiana, and has attracted attention throughout the country and in three foreign countries, as is testified to by the numerous letters received at the office of the state board of health. Every young mother in Indiana gets the book free if her name reaches the board's office. Dr. Hurty has a letter from a Chinese missionary asking for permission to translate the book into that language. The letter praised the Indiana doctor for the condensed manner in which valuable information was compiled in the book, saying that for that reason it was the most valuable book of its kind that had come to the missionary's hand. Letters also have come from England and France, all testifying to the health commissioner's genius as an editor.

## EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

# ON and OFF the SCREEN

MARIN SAIS.

SCENE FROM "THE THUMB PRINT."

Marin Sais is now playing leads in big pictures every few days and acquires herself with great credit.

Having seen a beautiful painting of the old slave market in Cairo, Bunny, the henpecked property man in a small theater, falls asleep and dreams he is a millionaire, outbidding a crowd of Arab sheiks for a bevy of beautiful slaves like the ones he saw in the picture. Of course there are all sorts of comic consequences.

"The Road to Placidale" tells how two lives left the broad highway of restless desire and luxury.

Having but two months to live, the elder brother shouldered the other's crime. The rough life of the prison, coupled with fresh air and hard labor, brought health and the desire for freedom. His escape made good, he came face to face with his former sweetheart. Through her efforts he was reinstated in society.

"Judge Not" is a magnificent four reel subject soon to be released. The story has a distinctly out of the ordinary plot and is conspicuous for its interesting situations and swift action. A prosecuting attorney, subject to spells of temporary aberration, and a dear friend of a judge, murders the judge one evening while strolling down the street. Another man is accused, and the prosecuting attorney, with no memory of his deed, throws himself vigorously into the prosecution. How a scientist untangles the skein of destiny is not only unusually interesting, but highly scientific.

"Buddy's First Call" will remind you of your first attempt at being a real beau and calling upon a young lady for the first time. Buddy's experience is perhaps a little different from ours, but it is just as embarrassing and a great deal funnier. He makes the mistake of calling on a girl who has a mischievous sister.

## Climbing Roses Make Home Very Attractive

Climbing roses are a valuable aid to the man who is interested in having his home in attractive surroundings. With a fine lawn, artistically massed shrubbery, and a wealth of vines clambering over the porch and roof, many a plain and unpretentious house has been transformed into a most attractive dwelling place. The U. S. Department of Agriculture has a rose garden on its ground and many experiments have been made in the treatment of the various kinds to secure the best results.

After the blooming season of climbing roses is over in June, the Department's landscape gardener advises that shoots should be pruned so also throw the growth of the plant into the new wood that bore no flowers this year, for this is the part of the plant that will bear next year. When a trellis is low (6 or 8 feet high) it is a good plan to cut off the shoots that have borne flowers this year clear to the ground.

Most people in following this advice may feel that they are ruining their bushes to cut them back so severely, but the young shoots that they have started about the roots will surprise them by springing up with wonderful rapidity. Each bush will probably put forth several new shoots that will grow as long as those cut or one shoot will grow much longer. In either case the trellis will soon be covered again. One shoot in a Washington garden last year grew 20 feet after the bush had

been cut down in this manner.

In the case of a high trellis a different method must be followed. The renewal of wood must begin from a point higher up instead of from the roots as the growth of a bush is not enough to replace all its top on a high trellis if required to grow so far. Only so much of the old wood should be removed after the flowers have bloomed as will enable the new shoots from the end of the remaining portion of the stalk to replace the old growth. About 4 feet is a safe measure of the amount that may be taken off.

Those who have grown climbing roses as a screen on their porches, in order to insure a fine bloom the coming year, will do well to follow the advice as given for the higher trellis. In other words, about 4 feet of the old stalks that have bloomed should be cut off immediately after the blossoms are withered. The foliage will recover within a very short period and continue to screen the porch and next year an abundant crop of blossoms will be assured.

Notice is hereby given that the undersigned has been appointed by the Judge of the Circuit Court of Rush County, State of Indiana, administrator of the estate of Amaziah M. Webb, late of Rush County, deceased.

Said estate is supposed to be solvent.

ADAM RICHEY,  
CHESTER PECK,  
Committeemen.

The new tariff law bringing about  
the consequent reduction in tariff  
schedules is felt more in the eastern  
manufacturing centers than else-  
where and it is noticeable first. The  
Tribune of Providence, R. I., re-  
counts some of the damage brought  
about by the new law as follows:

The destructive effect of the new  
Democratic tariff on the industries of  
Rhode Island appears in visible form  
in this year's assessed valuation of  
such property reported recently by  
the board of tax commissioners to  
the general treasurer for his collec-  
tion of the revenue therefrom.

Last year the corporate excess  
value of the state's manufacturing,  
mercantile and miscellaneous corpora-  
tions was \$138,107,928.65; this  
year it is \$135,688,931.58. These  
values, which are the values of the  
stock of these corporations over and  
above what is tangible in their plants  
and merchandise, are obtained from  
sworn statements by the responsible  
managers, verified by the tax com-  
missioner, and may be accepted as  
fair measures of the prosperity of  
the state's corporate industries.

This loss of nearly two and a half  
million dollars in the last twelve  
months means, therefore, that since  
the new tariff got into full operation  
the industries of Rhode Island have  
lost just that much in money-making  
capacity—in other words the Demo-  
cratic schedules of customs duties

have in one short year taken from  
the state that much wealth. It is not  
only the owners of this industrial  
property who suffer; it is the state  
treasury also, and hence the service  
which the state government can give  
to the people.

That it is a tariff hostile to domestic  
industry that has caused this loss  
admits no question. With imports of  
cotton cloths doubled under the Wil-  
son-Underwood law, as from \$721,-  
902 in value in March, 1913, to  
\$1,402,071 in March, 1914, and with  
imports of woolen and worsted cloths  
increased in value at the rate, for  
example, of from \$328,974 in March,  
1913, to \$1,396,910 in March, 1914,  
it was inevitable that Rhode Island  
mills should be less prosperous and  
Rhode Island mill stocks less valu-  
able.

The new Democratic tariff has al-  
ready stopped the increase of wealth  
in Rhode Island; continued in oper-  
ation indefinitely it would mean the  
industrial ruin of the state.

### Editorialettes

A Richmond newspaper has open-  
ed a farm employment agency for  
the several hundred men in what  
town who have been hit by the  
"psychological" business depres-  
sion. But why, kind sir, should  
there be something to relieve a con-  
dition that exists only in the mind?

It is hard to convince a man with-  
out a job and a good meal in pros-  
pect that this psychological business  
is to blame. He is, if he has any  
brains, at all, certain that it is a  
problem of the stomach and not the  
mind. And, of course, a man with-  
out brains couldn't deal with this  
"psychological" stuff.

We note by the wires that trains  
carrying hundreds of men to the  
wheat fields of the midwest and  
are leaving daily. We do not like  
to be a bit presumptuous, but there  
is no chance, we guess, of us be-  
ing charged with being a part of

a combination to force agitation  
bringing about business depres-  
sion—however, and notwithstanding  
all this, where are all these men  
coming from? If they were thrown  
out of a job by the "psychological"  
dope, are they going to take a psy-  
chological job? You Democrats  
with the psychological minds may  
reason that out for yourself.

"A summer vacation on wages,"  
is the way Secretary Wilson of the  
United States department of labor  
termed work in the harvest fields of  
the west and midwest. We would  
like to see a man who ever pitched  
any hay or wheat convinced of the  
vacation feature of such work.

### What Our Neighbors Are Talking About

#### Drafting Roosevelt.

(Anderson Bulletin, Dem.)

Those ardent Progressives who  
insist that Col. Roosevelt must run  
for governor of New York have  
sentiment on their side; but the colo-  
nel has figures on his side, and fig-  
ures are more convincing than senti-  
ment.

In 1912 Col Roosevelt, as the Pro-  
gressive candidate for president,  
polled only 390,021 votes in this  
state, as against Mr. Taft's 455,428  
and Mr. Wilson's 655,475. Mr.  
Straus did better than the colonel,  
but as the Progressive candidate for  
governor he had only 393, 183, to  
Mr. Hedges' 444,105.

Colonel Roosevelt had more popu-  
lar strength in 1912 than he has in  
1914, and the Progressive party has  
steadily disintegrated since the 1912  
election. In 1913 Judge Hand, the  
Progressive candidate for chief jus-  
tice of the court of appeals, polled  
195,097 votes; yet there was no  
better candidate in the field. Against  
Judge Hand's 195,097 votes, Judge  
Werner, the Republican candidate,  
polled 597,357. The Republican ma-  
jority over the Progressives exceed-  
ed 400,000.

The 1914 enrollment offers still  
less encouragement to Colonel  
Roosevelt to stake his political future  
on the outcome of the election in this  
state. The Republican enrollment is  
526,000 and the Progressive enroll-  
ment is only 111,000. Taking these  
figures as a fair indication of the  
relative strength of the two parties,  
what chance would Colonel Roosevelt  
have of carrying New York as the  
Progressive candidate for governor?

### PRIMARIES TELL A PLAIN STORY

Chairman Will H. Hays Points Out  
That Vote Cast Recently Indi-  
cates Political Trend.

### TOTALS ARE ENUMERATED

Not in Years Has Republican Orga-  
nization Been in as Good Fight-  
ing Trim So Early in Year.

[Special to the Daily Republican.]  
Indianapolis, Ind., June 15—Will H.  
Hays, chairman of the Republican  
State Committee, in discussing the  
political situation in Indiana today,  
said:

"Results of recent primaries in var-  
ious sections of Indiana tell a story  
plainer than words can tell it of the  
direction in which the political tide  
is drifting in Indiana. The figures of  
the primary voting in Lake, St.  
Joseph and Allen counties on the  
north, Marion, Henry and Randolph  
in the central part of the state, and  
Vigo, Lawrence and Manderburg in  
the west and southern part of the  
state reveal almost startling Repub-  
lican gains and corresponding Pro-  
gressive and Democratic losses.

"In Lake county, in which is lo-  
cated the industrial city of Gary, the  
Republican vote in the recent pri-  
mary totalled 6400 as against  
5176 cast at the presidential election  
in 1912. In that primary the Demo-  
cratic vote was but 2250 as com-  
pared with 5136 in 1912 and the  
Progressive vote dropped from 5659  
in 1912 to 660 in the primary.

"In Lawrence county last Satur-  
day the Republican vote was 350  
larger than the Republican vote in  
the primary in that county in 1912  
and the primary in that county that

year was held long before the open  
division developed in Republican  
ranks. The Democratic primary vote  
in this county dropped off 20 per  
cent. compared with the 1912 vote.  
The Republican primary vote in  
Henry, Randolph and other counties  
carried by our opponents in 1912 was  
large enough to return them all to the  
G. O. P. column this year by sub-  
stantial pluralities.

"The Republican organization has  
taken the position that it does not  
care how a man voted in 1912, nor  
his reasons for so doing. If he is  
with us today he is a part of us and  
has an equal voice in the party's  
affairs. That former Progressives  
are approving this spirit and are now  
again working with us is indicated  
by a comparison of this year's Pro-  
gressive primary vote with the vote  
cast by the Progressive party in 1912  
in the counties containing the cities  
of Indianapolis, Ft. Wayne, South  
Bend, Gary, Terre Haute and Evans-  
ville, the largest in the state; show-  
ing a loss of over 90 per cent.

"Out advices indicate a widespread  
dissatisfaction throughout the state,  
both in industrial centers and in the  
agricultural sections with the work-  
ings of the Democratic tariff bill. Re-  
publicans are active all along the  
line and there is ample basis for the  
feeling that is growing that there is  
to be a political upheaval in Indiana  
this year. There is considerable dis-  
satisfaction among Democrats over  
the reckless and extravagant man-  
agement of the state's financial af-  
fairs by the Democratic administra-  
tion and there is a growing feeling  
of a resentment among Wilson-Bry-  
an Democrats over the political  
manipulations of the Taggart Fair-  
banks Democratic machine. The last  
Democratic legislature raised the  
state tax levy and this will prove an  
important factor in the 1914 cam-  
paign.

"Not in years has the Republican  
organization been in as good fighting  
trim as early as it is this year. The  
attendance at the county had con-  
gressional conventions is wonderful  
and the enthusiasm manifested is a  
revelation."

## CHAUTAUQUA TO SET NEW RECORD

Continued from Page 1.

over as "The Apostle of Efficiency," will lecture at two-thirty o'clock. Wiggam is heralded as a great lecturer. He was raised on science and imbibed its fierce love of truth. He is a graduate of all the best colleges—the farm, the miner's pick and shovel, the essayist's, the chemical control of a sugar factory, campaigner when a boy for a political party, road salesman, mine superintendent, newspaper reporter and editorial writer on a great metropolitan daily.

Tuesday afternoon Lulu Tyler Gates, a celebrated reader, will give the program and at night Strickland W. Gillilan, the well known Hoosier humorist, will entertain the audience. Whenever the name of the Lulu Tyler Gates is mentioned, there comes the suggestion of the best on the chautauqua platform. She has a charming repertoire of monologue entertainments that are decidedly out of the ordinary. The committee has looked forward to the time when it would be able to include her in the week's program.

Gillilan, the humorist, is too well known in Indiana to need any introduction. His brand of humor is the kind that may be pronounced fun without any fear of contradiction. He is a contributor to several newspapers and many of the leading magazines. "Off Agin, On Agin, Finnigan," made him famous, and he has been able to retain it and add to it with each successive appearance.

Wednesday comes Weber's band and Thursday for two days Norton's Chautauqua orchestra and band. It will give the preludes during the two days' stay and will give the complete program Thursday night. The company is under the direction of William Wellington Norton, director of music at the University of North Dakota. There are ten college-bred men in the orchestra, and they are everyone of them talented soloists. They can give a most varied program, consisting of orchestra and band numbers, male horn and string quartets and duets as well as innumerable solos.

Thursday afternoon Balmer's Kaffir boy choir will be the attraction. This is pronounced more educational and instructive than purely entertaining. The choir is so much out of the ordinary for the chautauqua platform. Balmer first brought together ten years ago five boys representing four of the main races of South Africa, and ever since his organization has been one that has triumphed everywhere. The boys have appeared before many of the crowned heads of Europe. They recently returned from a most successful tour of Great Britain.

Friday will be the equal of Wednesday in many ways. In the afternoon, Lincoln McConnell will lecture and in the evening Booker T. Washington will lecture. Neither of these celebrities want for introduction here as their field of endeavor is so well-known. McConnell has entertained and instructed many audiences here and his return will be welcomed.

Booker T. Washington is the foremost man of his race, one who has brought it much credit. It has been considered quite a stroke for the committee to get him on the program here.

Saturday the Oxford company, in song and drama, will come for the remainder of the chautauqua. They will give the preludes and a full program Saturday night. They will present the Mikado on that occasion. This company is said to be the peer of any musical organization

of its class before the chautauqua public. It is pronounced better than the Kellogg-Haines Singing Party which was here two years. Saturday afternoon Col. Bob Seeds will lecture. He has a humorous lecture which carries a note of seriousness that makes it at the same time instructive and interesting.

Wirth Lowther will be the platform manager this year. He was here half the week last year and gave universal satisfaction. He will lecture on Tuesday, Thursday, Friday and Saturday afternoons. Since he was here last year, Mr. Lowther has become pastor of the Christian church at Columbus, Ind.

## FIRE IN BOARDING HOUSE KILLS SEVEN

Score Are Burned and Another Score Badly Injured by Jumping to Sidewalk Today.

### BUILDING NOT IMPROVED

(By United Press.)

Milford, Mass., June 16.—Seven men were burned to death, a score were burned, severally fatally, and another score badly injured in jumping from windows in a fire early today which swept the tinder box boarding houses of Peter Copalan.

The building was built in 1860 for a shoe shop. It was without fire escapes, fire extinguishers or watchmen, with corridors only five feet wide and window sills two and a half feet wide. Young Armenians working in the paper mills swarmed in the place. It went up like gunpowder.

Macaronia Dealers Hear Interesting Addresses at Convention

(By United Press.)

Chicago, June 16.—Latest improved methods of turning out macaronia and sleek-looking noodles were discussed today by the National Association of Macaronia and Noodles Manufacturers of America, who met at the Hotel Sherman.

B. R. Jacobs of the Dominion Grain Research Laboratory, Winnipeg Can., explained how chemists differentiate between water noodles and egg noodles. He went into an exhaustive history of the noodles business. Dr. E. F. Ladd of the North Dakota Agricultural Experiment station was to tell the manufacturers late this afternoon what kind of grain make the best macaronia.

## WILL MEET IN COLUMBUS

Many Prominent Men on Municipal League Program

(By United Press.)

Columbus, Ind., June 16.—The annual meeting of the Municipal League of Indiana, to be held here July 7, 8 and 9, will be addressed by many people of prominence in various sections of Indiana. Some of the subjects discussed and the speakers are: "The Filtration of a City's Water Supply," by S. W. Potter of Washington, Ind.; "The Three Mile Road Law as it has Affected Us," by J. C. Heron, city attorney of Kokomo; "Municipal Markets" by Mayer Robins of Richmond; "The Betterment of the Race," by Dr. J. N. Hurty, state health commissioner; "Track Elevation in Smaller Cities" by John A. Gavitt, city attorney of Hammond; "Severing a City," by H. T. Watts, city engineers of Vincennes and "Municipal Ownership of Public Utilities," by Mayor McCarty of Washington, Ind.

The picnic which was to have been held for the primary department of the Main Street Christian Sunday school Thursday afternoon has been postponed.

## ONLY ONE WAY TO HAVE DEMOCRACY

Speaker at Convention of Women's Clubs Points out Needed Reforms in Government

### CANNOT BE RUN BY PROXY

Director of Wisconsin University Extension Division Discusses Public Questions

(By United Press.)

Chicago, June 16.—"Only as we citizens go to school to each other, using the common schoolhouse as the Old New England Town hall was used, and using the school principal as the old New England town clerk was used, can we realize democracy, and find the resolutions of our problems industrial, interracial, and intersex," said Edward J. Ward, of the University of Wisconsin at this afternoon's session of the Biennial Convention of the Federation of Women's Clubs.

Mr. Ward is employed in Wisconsin's University Extension to promote the organization of the population of that state into one body for the all-sided and free discussion of public questions, for industrial co-operation and wholesome recreation.

"We have been providing for a few individuals, very well equipped and well manned school buildings, the city halls, state houses and national capitol," said Prof. Ward. "We have given to this select few the privilege of going to school to each other in these buildings to study and discuss the problems of our living together. But this has not been self-government, for you can no more have self-government through representatives than you can eat a meal or take a bath or breathe, through representatives. Self-government is self-education and this cannot be done by proxy. We citizens must go to school to each other to prepare for the examination of our intelligence at the ballot box."

"In Wisconsin and now in several other states, the right of the citizenship to use the public schoolhouses as headquarters of deliberation is recognized."

"Civic Secretaryship, the Prime Ministry in a democracy, must be recognized and remunerated as public service. Normally this service under the citizens will be, as it should be, rendered by the men in each community who is now employed as the principal or director of the instruction of the children of each community. This is the essential next step."

## AUCTIONEERS IN SESSION

Convention of International Association Opens in Chicago

(By United Press.)

Chicago, June 16.—The best auctioneers that ever shouted: "Going, Going—Gone," flocked in the Hotel Sherman lobby today and swapped stories that would make David Harum blush. The dean of the tribe of auctioneers—Col. Cummings—was there and so were the prize auctioneers of several middle western states.

Aside from the story telling, the auctioneers, intend to transact some business in the two days convention of their international association. They will consider legislation that may be inimical to the auctioneers' business.

### SHEER AND LACEY ARE THESE MID-SUMMER BRIDESMAIDS' FROCKS

As it is the mission of the bridesmaid to lend color and gaiety to the fête, her frock should be the very embodiment of youth and charm. This should not be difficult this season; materials are so sheer and designs so lovely.

Flowered chiffons, shadow laces and taffetas are perhaps the most favored of all materials for this purpose. Plain and flowered taffetas are combined with chiffon and lace as illustrated in 8150, taffetas is often used to trim lace and chiffon frocks. This design is here developed in shadow lace flouncing which lends itself excellently to the tiered effect of the skirt. An underdress of the most delicate pink chiffon lends color to the frock and is repeated in the overblouse of taffetas. An odd, old fashioned looking, pinked ruching edges neck and sleeves of the overblouse and a bias strip of the taffetas, knotted simply in front completes the costume.

This design may be copied in size 36, with 7½ yards of 22-inch flouncing and 3½ yards of 36-inch material for the underdress.

The long waisted effect of the second frock is one of the season's novelties; it is youthful to a degree and charmingly suited to the summer wedding. Here a flowered taffetas is combined with a plain taffetas in a delicate shade of Nile green; this color repeats the predominant tone in the flowers and the chiffon of the sleeves.

For a girl of 18, this design requires 4½ yards of 42-inch material.

Taffetas are wide and are priced from about \$1.25 a yard and up.

### A PLAITED SKIRT AND A COMFORTABLE COAT FOR THE LINEN SPORT SUIT

One linen suit a summer is quite necessary in spite of the favor shown to the new rough finished cottons. There is something crisp and cool about it that is decidedly satisfying on a hot day.

This suit, 8288-8059 has a yoked coat, something on the order of a Norfolk, with large patch pockets, mannish collar and revers and a wide, stitched belt of the same material as the suit, which is pale blue linen. The skirt is box-plaited onto a three-piece hip yoke.

To copy this suit in size 36, 2½ yards of 42-inch material is needed for the coat (8288) and 6½ yards of the same width for the skirt (8059). The second costume shows a happy combination of crepe de Chine in the blouse, with a skirt of rough finished white cotton. These silk shirts are especially attractive for sports wear as they are cool and do not soil and crush easily and the rough cotton skirts are favored for the same reason.

Novelty buttons and the patch pocket on the skirt are the only trimming aside from the cut which is smart and new.

This blouse (8389) requires for size 36, 2¼ yards of 36-inch material; the skirt (7489) takes 3 yards of 42-inch material.

No. 8288, sizes 32 to 44.  
No. 8059, sizes 22 to 32.

## THE RECALL

How This New Political Panacea Operates in Colorado

By J. Feudner.

Unlike England, the State of Colorado is not bothered with suffragette demonstrations for the reason that the women have the right to vote. The city of Denver claims to be progressive and so it voted last year in favor of a "Commission form of government." And like most places where these new ideas are introduced they have the balance of these new-fangled political cure-alls, the "Initiative and Referendum and the Recall."

As long as I lived in Indiana where an old-fashioned and staid form of government controls the destinies of the people, I paid but little attention to these new political panaceas.

I have hardly been here in Denver two weeks and I have already run up against the "recall" proposition—or rather, it has bumped up against me. A few days ago, while sitting in front of the hotel, a most affable lady with a petition in her hand approached me and asked me whether I was interested in the recall of Commissioner Nisbet. I replied, "No, madam, I am a stranger in a strange land, and not being acquainted with the merits of the case I am not in a position to give your petition intelligent consideration."

The lady then went inside to see whether she could find some voters—either male or female—who were eligible to sign the petition.

I asked the lady to see the petition. It was in printed form and cited several grievances on which account Commissioner Alexander Nisbet should be recalled. Nisbet is at the head of the Commission of Safety, under whose jurisdiction is the fire department, the police department and the duties usually devolved upon a county sheriff.

One of the "unwritten" grievances against this officer which was not mentioned on the petition, was his dilatory prosecution of the kidnappers and assailants of a Baptist minister who lectured on Catholicism in Denver.

It will be remembered by those who read the papers that on last April 5th Rev. Otis L. Spurgeon, after delivering his lecture in Denver, was taken out of the hotel by several men, put into an automobile and taken outside the city where he was given a severe beating. Several parties were finally arrested, but it is doubtful whether anything will be done in the matter.

At a special election held on Feb.

## WOMAN COULD HARDLY STAND

Because of Terrible Backache. Relieved by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered from displacement and inflammation, and had such pains in my sides, and terrible backache so that I could hardly stand. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering woman."—Mrs. HARRY FISHER, 1642 Juniata Street, Philadelphia, Pa.

### Another Woman's Case.

Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down, and backache, until I could hardly stand and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIL LAWSON, 126 Lippitt St., Providence, R. I.

**Danger Signals to Women** are what one physician called backache, headache, nervousness, and the blues. In many cases they are symptoms of some female derangement or an inflammatory, ulcerative condition, which may be overcome by taking Lydia E. Pinkham's Vegetable Compound. Thousands of American women willingly testify to its virtue.

14, 1913, the electors of the city of Denver declared for a commission form of government. Under this government all the legislative, executive and administrative powers and duties are vested in five departments, as follows: Department of Property, Department of Finance, Department of Safety, Department of Improvements and Department of Social Welfare. The heads of these departments are designated as "Commissioner of Property," "Commissioner of Finance," etc., each with a salary of \$5,000 a year.

The initiative and referendum and recall was adopted as a law in the State of Colorado on November 8, 1910.

The recall has been defined as a "legal provision for the retirement of a public officer before his term of office expires, if he has forfeited the confidence of the voters." The manner in which it is employed varies considerably in the different states, but the usual form of procedure is as follows:

A petition containing a brief statement of the charges preferred against the official sought to be recalled, and signed by a fixed percentage of the voters from the district from which he was elected, is filed with the proper recording officer or clerk.

If the petition is properly presented and bears the requisite number of signatures, within a stated time an election must be called at which the officer in question must stand for re-election, usually competing with other candidates for the same office. In most cases a majority vote decides the result.

In the state of Colorado 25 per cent of the votes cast at the last election is required on the petition of recall, and all elective officers are subject to the recall.

Legislation providing for the recall has been adopted in the states of Oregon, California, Arizona, Nevada, Colorado, Washington, Idaho and Michigan. In the first five states mentioned the recall applies to judicial officers also, and in Colorado it has been extended to the recall of judicial decisions.

The right of petition for recall is essentially a haven for minorities. There is no minority too small to make itself heard in this way. But once the petition becomes a self-executing instrument, as under the recall system, a question arises as to how large a minority need be to gain the official recognition which will set the machinery of removal to work.

Another question is, can a community be maintained at a high pitch of anger, enthusiasm or interest to the detriment of a public officer for a period ranging between three weeks and three months? Because it takes some time to procure the signatures in a large city, even if done systematically. As in this present case in Denver, the lady mentioned made a house-to-house canvass and not alone looked up the male voters but the female voters also. But it is presumed that in order to expedite matters, the city was divided into districts and each district had its canvasser.

After the petition has been duly signed and filed then some time elapses during which time the signatures are examined and the election ordered.

When the process of petitioning is over the officer under attack is given an option between resigning and becoming a candidate for the job of filling his own office for the remainder of his unexpired term.

The petitioners, who often constitute a more or less distinct faction, or temporary party, proceed to nominate an opponent by petition.

Upon the ballot provision is usually made for a statement of the reasons for the sought-for removal and the counter statement of the officer, justifying his course in office. These recitals, as in the original petition, because of their brief and general character, may take on a decided political color.

As to the sufficiency of the final verdict of the electorate, most of the

laws require that the successful candidate shall receive a majority of all votes cast.

The proposed recall of this municipal officer, is the first time that the machinery of the recall proceedings have been put in motion in Denver and since Commissioner Nisbet is a Democrat, the recall petition is signed by Republicans with alacrity. Of course it is impossible to foretell at this time what the out-come will be.

While the recall may be a good thing, affording the voters an opportunity to oust any inefficient, incompetent or derelict officer, yet it seems to me that the system will keep a county or city in a state of constant political turmoil, with frequent elections, which in themselves are very expensive.

For instance, petitions are being circulated at the present time by the Denver Convention association for an amendment to the state constitution providing that, after any initiative or referred measure has been

voted upon by the people, it shall not be again initiated or referred until after the expiration of six years.

"At present," said the secretary of the convention association the other day, "any initiated or referred measure which is defeated at once election can be submitted again two years thereafter. Now, our association is in no way opposed to the principle of direct legislation, but we feel that once the people have spoken on initiative measures, six years, instead of two years, should elapse before they are asked again to express an opinion on the same question. Under the two-year provision the constitution of the state is practically all the time in the melting pot. Our political condition is one of perpetual uncertainty. We never know 'where we are at.' And it is to remove this constant flux in our political and legislative affairs that our association is now presenting this petition for the substitution of the six-year interval for the two-year interval."

Old Man, Young Girl and an Ardent Lover Forms Triangle of Divorce Suit in Anderson

JUDGE GRANTS INJUNCTION

(By United Press.)

Anderson, Ind., June 16.—An old man with money, a young wife with looks and young lover with ardent manner—that triangle according to a divorce complaint filed here by William Walters, the wealthy old man, doesn't work towards marital bliss. Walters' complaint sounded so bona fide to Judge Ragot that he granted Walters' petition for a temporary injunction against Jack Carmody, and as a result that young man with ardent manner may not visit the Walters home until the divorce case is decided.

Walters, who is a farmer, sets forth a new schedule for household expenses. The high cost of living suddenly became very, very high when he took unto himself Miss Martha Davis to be his dutiful and loving wife, he says. Miss Davis, who was 22, declared with heaving bosom that she dearly loved William Walters, 49. After the wedding, he alleges, he found she dearly loved his money.

They spent \$1,000 for household furniture, \$5,000 for a new home, \$800 for carpets, and bought a new automobile. Mrs. Walters' expenses averaged \$150 a week, he declares, and now she has \$2,000 of his money in the bank.

But Walters says the worst of all is she loves Jack Carmody.

So Moore was able to be taken from Sexton's sanitorium to his home south of the city Monday. He is making gradual improvement.

## DEFENSE HAS LONG LIST OF WITNESSES

Probable That Vandenberg Case Will Not be Concluded Before Saturday—Plaintiff Rests.

### EFFORT TO PROVE HIM INSANE

The case of the Kokomo Trust company and William H. Turner against Moses and Mary Vandenberg of Knightstown was slowly grinding away in the circuit court today before Special Judge Blair of Shelbyville. Notes in the sum of \$7,000 and foreclosure of a mortgage are demanded. The case will probably not be concluded before Saturday because of the long list of witnesses which the defense has yet to present.

The plaintiff rested its case yesterday, the first day of the trial. The defense began the introduction of evidence this morning, and the burden of its case seemed to be an attempt to prove that Vandenberg was a person of unsound mind. It was brought out through witnesses that Vandenberg was sent to the insane asylum and was later released and was interested in the automobile business. A guardian was recently appointed for him. The defense has several depositions to introduce.

### Amusements

At the Gem tonight Florence Lawrence will be featured in a two part Victor drama. Matt Moore is also in the picture and plays the part of the good Samaritan. The story is very strong and will hold the interest of the audience from the start. The other picture is a comedy, "Carnoon by Mayers" and it is said to be a remarkable picture.

Alice Joyce will be featured tonight at the Princess in a two reel picture "The Cabaret Dancer." Tom Moore and Alice Hollister are also in this picture, which is a powerful drama. The other picture is a comedy, "The Bully's Doom" and is an excellent Lubin comedy.

## DIES IN HOSPITAL AT INDIANAPOLIS

Mrs. Charles Crosby, Age About 60 Years, Expires of Complication of Diseases There Today.

### WAS RELATED IN RUSHVILLE

Mrs. Charles Crosby, age about 60, a resident of Milroy, died this morning at 4:15 o'clock at the Methodist Hospital in Indianapolis. Her death was due to a complication of diseases. Mrs. Crosby has been in the hospital for several weeks and death was expected.

She has been a resident of Milroy for a great many years and was a well-known woman. She was a member of the United Presbyterian church. Her body was brought home this afternoon. The funeral arrangements had not been completed at a late hour this afternoon, but will probably be held Thursday and burial will take place in the Milroy cemetery.

Mrs. Crosby is a sister-in-law of Ed Crosby of this city, and is survived by her husband, and four children. Mrs. Crosby was married first to Mr. Frazier, who is now deceased, and two children were born to them, Mrs. J. D. Farlow and John Frazier. The two children by her last husband are Mrs. Earl Harcourt and Reed Crosby.

### Piano Strings.

The tone of a piano or of an individual string of the same will be higher in a cold room than in a warm one. The reason is not far to seek. A stretched string gives out a certain pitch only when it is of a certain length and a certain tension. This is shown in the laboratory by hanging weights on a string and plucking it. The more weight hung on the string the higher the note given out. Now, the strings of a piano are metal wires, all of which contract when cooled. As they are fastened at both ends, however, they remain the same length, but just tighten up—that is, the tension increases just as if an extra weight were hung on the end. Of course, the effect is not great save in a very cold room, but even a small variation in tone may be detected by a good musician. This is probably one reason why certain prima donnas always insist on singing in a room of a certain temperature, which, of course, is the temperature at which the piano was put in adjustment with their voices—or ought to be.—New York World.

### Cyrus a Canal Builder.

In speaking of the river regulations of the ancients Sir William Willcocks, the noted English engineer, said: "Cyrus the Great controlled the Gyndes, a tributary of the Tigris, in a truly original manner. Babylonia was already peopled and lands were needed for his Persian troops. The Gyndes discharges 40,000 sectional feet and runs thirty feet deep in a sandy and mobile bed. He could build no regulator, so he dug thirty canals, divided the waters of the river among them, closed the river by an earthen dam and completely controlled it. As he could never have induced his wild soldiers to dig these canals for any useful purpose, he took advantage of the fact that his favorite horse had been drowned in the flood and urged his soldiers to dig the canals and dissipate the waters of the river in such a fashion that it could never again drown a horse.—Engineering Record.

## CHAUTAUQUA TO SET NEW RECORD

Most Costly as Well as Unique and Entertaining Program Ever Offered Ready For This Year.

### MUSIC OUT OF THE ORDINARY

Besides Weber's Band, Other Well Known Organizations Will Appear—Celebrated Lecturers.

Announcement was made today of the program for the annual Rush county chautauqua which will be held this year in the coliseum at the city park August 2 to 9 inclusive. The announcement of the program has been delayed this year because it has been difficult to arrange for a speaker the closing day.

The committee, however, believed today that it says with some certainty that Bishop Will F. Shepherd of Kansas City would lecture afternoon and evening, although the contract has not yet been made. He is a bishop in the Methodist church and is a renowned platform lecturer.

The big outstanding feature of the program this year, one that is always attractive, is John Weber's band. Patrons of the chautauqua here have been clamoring for a big band for several years and last year they were given their first treat when Innes' organization was here. The band was easily the most popular attraction ever at the chautauqua. Weber's band is equally as good, if not better. It will give two concerts afternoon and evening and will be the sole attraction that day.

The program is "long" on music this year. The committee never has offered such a galaxy of prominent and successful musical organizations as this year. More money will be expended in this department than ever before. In fact, the program as a whole will cost more this year than ever in the history of the chautauqua in Rush county.

Dr. Herbert L. Willett of the University of Chicago will be the opening Sunday lecturer. Dr. Willett has been pronounced by critics as "the most attractive and scholarly lecturer on literature and biography of the Bible to be found anywhere in America." He is a charming speaker with a clear, resonant voice, splendid appearance, eloquent language and strong reasoning qualities. He is professor of Semitic languages and literature in the University of Chicago and pastor of the Memorial Church of Christ in Chicago.

The prelude to the opening Sunday will be furnished by Miss Martha Marr Hogsett of this city, who has had experience on the Lyceum platform. Miss Leona Thomas of Arlington, a gifted violinist and Helen Ax Brown, a talented soloist of Valparaiso.

Monday Carl Lampert and the Schumann Quintet will come for two days. This musical organization will furnish the preludes to all programs during the second and third day of the chautauqua and will give a complete concert Monday night.

Every member of this organization is an artist of ability, a soloist of rare worth. The company is composed of the following: Karl Lampert, violinist, leader; Nicholas Zedler, cellist; Frederick U. Haines, concert pianist; Norman Weiler, second violin; Miss Elsie Haines, organist.

Monday afternoon Albert Edward Wiggam, known the United States

## PROGRAM TO BE ANNOUNCED

Will be Completed by Tomorrow For D. A. R. Exercises Thursday.

The program for the flag day exercises which will be held under the auspices of the Rushville chapter of the Daughters of the American Revolution Thursday afternoon at two-thirty o'clock at the Graham high school building will be announced tomorrow. The program will be given in connection with the awarding of prizes of twenty dollars in cash for the best essays on American history. The public is cordially invited to attend.

## NARROWLY MISSED BEING HIT BY TRAIN

Presence of Mind of Young Bruce Carr Prevents Automobile Accident at Pennsylvania.

### MACHINE IS RUN INTO A YARD

Mrs. Owen L. Carr and sons, Bruce and William, had a close call from death last night at the Main street crossing of the Pennsylvania railway. They were riding in the Carr automobile and were going south in Main street. Bruce Carr, who was driving the machine, failed to hear or see the northbound passenger train until he was almost upon the track. To avoid being hit he turned the machine suddenly to the right and went on the lawn at the home of Alvin Hinchman.

This was all that saved the party as the machine could not have been stopped, nor could it have been driven across the track in time to avoid being hit. The presence of mind of young Carr was all that saved them from a horrible accident. All were badly frightened as were the people in that section of the city that witnessed the near accident.

## DESERTED 3 DAYS AFTER MARRIAGE

Mrs. Edith Roots Tells Court Pathetic Tale of Hardship and is Granted Divorce.

### NO DECISION IN RAMSEY CASE

Yesterday was divorce day in the circuit court. Judge Megee heard two cases, granting one and taking the other under advisement. Mrs. Edith Roots was given a divorce from John B. Roots, and \$100 alimony. This case was heard late yesterday afternoon. Mrs. Roots alleged cruel and inhuman treatment. Her story was one of the most pathetic told in the local court for some time. According to Mrs. Roots they were married just three days when he deserted her. She did not see him again until the funeral of their baby. On this occasion, according to Mrs. Roots, he compelled her to walk home from the cemetery. In the complaint she demanded \$450 alimony.

Judge Megee took the divorce case of Oliver Ramsey against Agnes Ramsey under advisement.

Alonzo Whisman has filed petitions in the circuit court for the appointments or guardians for Pauline and Warren Whisman.

## ELKS MAKE GOOD THEIR PROMISE FOR PLAYGROUND

Pay Handsome Reward When Trophy to be Awarded in Ball Game Friday is Returned.

### THIEVES NEVER TO BE KNOWN WILL COVER YEAR'S EXPENSE

Association of the Peace Appointed and Committee on Cool Air is Named.

True to their promise, the Elks today refused to make public the names of the sneakthieves who Sunday night stole from the window of Belker's Shop the cabinet containing the trophy to be awarded the winning baseball team in the game at the ball park Friday afternoon, and who returned it to Harrie Jones, chairman of the committee on arrangements, last midnight.

The Elks kept their word, also, in regard to reward. It was paid without a whimper and no one will be any wiser than they are right now concerning the theft. The Elks are happy now that the troublesome matter is settled, but they figure they are not half as tickled as the crowd that sees the ball game will be.

The committee is dubious of Belker's Shop and will not take any more chances with him. At a meeting held in the office of Chairman Jones last night, it was determined by unanimous vote to place the cabinet in the window of Gunn Haydon's hardware store. It was the opinion of the committee as well as others that a hardware store would be more secure against the class of citizens which perpetuated the dastardly trick of Sunday night.

Treasurer Charles Brown reported today that a new supply of tickets had been obtained so as to meet the demands. The tickets have been selling far beyond the hopes of the most optimistic of the Elks crowd. Tickets may be purchased at either Brann's grocery store or Belker's Shop.

Justice of the Peace Wolfe has received word that he will be compelled to be out of the city on Thursday and it is just possible that he may not be able to return until Friday afternoon. In that event, the committee on arrangements elected Claude Cambern associate Justice of the Peace. So it is sure the boys will get all that is coming to them.

All of Rushville is showing a remarkable amount of enthusiasm over helping to make the "BIG DAY" one long to be remembered by turning out en masse and boosting the attendance and in helping the Elks to secure some needed change. The committee consisting of Dr. W. S. Coleman, L. M. Sexton and Harry Beale, which is visiting all of the business houses and shops, reports that almost every place with two exceptions, have agreed to close from three to five next Friday afternoon.

More "cops" have been appointed some real for sure detectives who will be in plain clothes for the purpose of carrying out some additional orders of Justice Wolfe's court. The Colonel refuses to give any details of this last move, but says he will let the folks know the day of the game. These very astute gentlemen will assist Constable Cavitt and sleuths, L. W. Henry, E. C. Moore, C. P. Manzy, Lee C. Thomas and Lee Pyle.

A reception committee to welcome the visitors and make them feel that it is good to be present, and which promises to provide plenty of "cool

## START CAMPAIGN FOR PLAYGROUND

Determine to Raise \$500 for Equipment in two Weeks

### WILL COVER YEAR'S EXPENSE

Permission of City Council to use City Park Will be Asked at Regular Meeting Tonight

A two weeks campaign to raise five hundred dollars to equip a public playground in the city park was determined on at a meeting of women in the library late yesterday afternoon and permission to use the park will be asked of the city council at its regular meeting tonight.

Twenty-five women attended the meeting and an unusual interest was displayed in the undertaking. About a hundred women of the city have agreed to assist in the campaign to raise five hundred dollars necessary to equip the grounds and employ a supervisor for the season.

The fund will be raised by subscription, tag day, food sales, benefit motion picture shows and other methods which are yet to be arranged. It was first planned to hold tag day Friday, but because of a conflict with the Elks ball game it was announced that it would not take place until some day next week.

Only the best equipment will be purchased, the standard productions which are used in all of the well equipped playgrounds in the larger cities. The supervision of play will also be of the same high character.

It is the intention of the promoters to hire a teacher who has been well trained in the art of play and allow this teacher to supervise the play eight hours a day for six days in the week during the vacation period.

Throughout the United States public playgrounds are maintained by recreation commissions, park boards, charity organizations school boards, health boards and all sorts of associations.

If permission is granted by the city council to allow the use of the park and the money is raised, the playground here will be conducted by the child welfare committee of the Rushville Social Service and Civic Improvement association until a better agency, such as the school board or a department of the city government, is willing to take it over.

### MANY FROM HERE ATTEND.

A large number of Republicans from here attended the convention at Cambridge City today. Several automobile loads made the trip, but the majority went by rail.

John S. Davis has filed a quiet title suit against Robert Casady, et al.

Miss Beatrice McNamara has resigned her position as pianist at the Gem theatre.

Mrs. Lewis Henry, underweight an operation yesterday at the Sexton Sanatorium.

The slides and lecture on "Mexico" have been received and the lecture will be given at the United Presbyterian church Friday evening, July 17. This will be the first time the lantern purchased from the proceeds of the Williams Jubilee Singers concert here will be used.

Robbers Get \$500 in Stamps and Cash at Gaston Today

(By United Press.)

Muncie, Ind., June 16.—The safe in the Gaston postoffice ten miles west of here was cracked by robbers shortly after midnight and \$500 in cash and stamps was taken. Entrance was gained by prying open the front and rear doors. Several persons heard the loud nitroglycerin reports shortly after midnight but made no investigation.

## STATE DEPARTMENT IS PUT UNDER FIRE

Aids New York Bankers in Collection of Fraudulent Claims Against Nicaragua is Charge.

### FORCES BOND REDEMPTION

(By United Press.)

Washington, June 16.—Serious charges that the state department had been actively aiding New York bankers in collecting fraudulent claims against Nicaragua were made in a resolution introduced today by Senator Smith of Michigan. He declared the seizure of ports by American marines and adomation of customs houses enabled bankers to force the present Nicaraguan government to redeem at par with enormous profits to the bankers bonds issued illegally and that the collection with the aid of the state department is a fraud on the Nicaraguan people.

"The present administration of Nicaragua," the resolution states, "has been maintained for two years by the presence of American marines in the capitol in the guise of the legation guard and in defiance of the Nicaraguan people."

## P. J. LYNCH NAMED FOR CONGRESSMAN

Newcastle Man is Unanimous Choice of Republicans Who Meet at Cambridge City.

### HIGH ENTHUSIASM PREVAILS

[Special to the Daily Republican.]

Cambridge City, Ind., June 16.—Patrick J. Lynch of Newcastle was unanimously nominated for congress from the sixth district at the Republican convention here this afternoon. The greatest enthusiasm prevailed and standing room was at a premium in the theater where the convention was held.

Lynch's name was the only one presented to the convention and the nomination was by acclamation. Lynch is the present district chairman and is a very aggressive Republican. It was felt by the convention that he would make a very active campaign in behalf of the Republican party.

Hugh Th. Miller of Columbus, Republican candidate for United States senator from Indiana, spoke this morning, but the chief speech of the convention was made this afternoon by John McCordle of Indianapolis. Gurley Brewer of Indianapolis spoke.

Wireless messages have been received in Germany from the Cape of Good Hope, six thousand miles distant, clearly and distinctly.

Defeat of Mexican Constitutionalists by Federals is Chief Washington Topic

### VILLA GOES TO THE RESCUE

Carranza Will Accept Word of Mediators as Final Under Certain Conditions

BY JOHN E. NEVIN.  
(U. P. Staff Correspondent.)

Washington, June 16.—Interest here today centered in the fighting near Zacatecas, Mexico. Reports of a complete Rebel defeat are not confirmed, but it is certain that the Constitutionalists forces have been forced back.

Conditions immediately following the battle of Torreón have been duplicated and Villa is now rushing to the scene with his fresh veterans of the north. If he can retrieve the situation, it will have a telling effect in Carranza's favor on the Niagara Falls conference.

Carranza headquarters here very frankly say that Carranza will accept the word of the mediators as final; will neither grant an armistice or an agreement to mediate internal affairs and will depend on the United States standing out for acceptance of a peace plan in which he can take part.

Before going to the cabinet meeting today, Secretary Bryan said: "I consider that satisfactory progress is being made at Niagara. Speed is out of the question. I have consistently refused to dignify sensational newspaper stories by discussing them."

## EVIDENCE NOT SUFFICIENT

For This Reason Squire Dismisses Malicious Trespass Suit.

The case of Ota E. Newhouse against J. R. Ward and son Roscoe Ward, charging malicious trespass, was dismissed in the court of Squire James Kratzer this afternoon because of the lack of evidence. Newhouse charged that Ward and his son entered on his premises, broke the lock on his barn and took out a calf which belonged to them. The calf had strayed on to the road and Newhouse had taken it up, it is said.

and have every style buggy known to the best vehicle builders in the country. We have large, roomy buggies that are low down and easy to get in and out of and then we have them for the young folks (we don't mean baby carriages) and middle aged people. In fact, we have buggies to meet every requirement of all kinds of buggy users. There is no use for us to tell you of their quality, perhaps you have already found that out by using one, or if not you can ask your neighbor and he will tell you how they wear. You take no chances when you buy from us because we guarantee every buggy we sell and guarantee it an honest one, and one that is always good. We believe that an honest guarantee gives us the good will of our customers and when a merchant loses the good will of his customers he is flirting with the commercial undertaker. # C. H. & D. QUIZ SEEMS CERTAIN

Interstate Commerce Commission  
Expects to Show G. W. Perkins  
Was Agent of Morgan.

## IN PURCHASE MADE BY B. & O.

Testimony Given Recently Showed  
\$50,000,000 was Paid for C. H.  
& D.—Perkins Star Witness

Washington, June 16.—The rumor that George W. Perkins will be summoned as star witness before the Interstate Commerce Commission soon is gaining strength here, although officials of the Commission refused to substantiate the report with any authentic statement. They contend that the Commissioners have not conferred and outlined any definite course which will be pursued in the proposed investigation of the financing connecting the Pere Marquette Railroad with the purchase of the Cincinnati, Hamilton and Dayton Railroad by the Baltimore and Ohio. However, it is predicted by those in close touch with the situation that Perkins will figure prominently in the inquiry which is made.

Commission officials expect to show that Perkins acted in accord with the wishes and dictates of J. Pierpont Morgan in the negotiations preliminary to the purchase of the Cincinnati, Hamilton and Dayton by the Baltimore and Ohio. Testimony given recently before the Commissioners showed that \$50,000,000 was paid by the Baltimore and Ohio in this sale.

That a thorough inquiry will be made into the finances of the three roads to ascertain in what effect the banking interests had in the sale is a known fact. Just when the intended inquiry will be commenced is indefinite. Special Counsel Brandeis, who will probably conduct the investigation, is now ill, and until he is able to appear at his office nothing further regarding the contemplated quiz will be done. It is expected that summonses for witnesses will be returned this week.

# HURTY TO WRITE ANOTHER BOOK

Will Be on Plain Foods and Plain Cooking as Seen by Indiana Health Commissioner

## FIRST EFFORT WAS SUCCESS

Baby Book has Been Widely Read  
not Only in This Country but in Europe

(By United Press.)

Indianapolis, June 16.—Encouraged by the enthusiastic reception given the "Indiana Mothers, Baby Book," Dr. John N. Hurty, state health commissioner, announced today that the state board of health would in the fall issue another book entitled "Plain Foods and Plain Cooking." The book will be written by Dr. Hurty, who as a chemist is an accomplished cook. It will deal with plain foods from the Indiana farms almost entirely, and will be valuable for the recipes. "Of course we will include prunes and other staples, though they aren't grown in Indiana," said Hurty.

The idea running through the whole book, as Dr. Hurty expressed it, will be "to nourish the body and provide gustatory enjoyment." Dr. Hurty asserts that just as much pleasure can be had from eating well-cooked plain foods as from eating the rich food that is dangerous to the health.

The Baby Book has been met with open arms in Indiana, and has attracted attention throughout the country and in three foreign countries, as is testified to by the numerous letters received at the office of the state board of health. Every young mother in Indiana gets the book free if her name reaches the board's office. Dr. Hurty has a letter from a Chinese missionary asking for permission to translate the book into that language. The letter praised the Indiana doctor for the condensed manner in which valuable information was compiled in the book, saying that for that reason it was the most valuable book of its kind that had come to the missionary's hand. Letters also have come from England and France, all testifying to the health commissioner's genius as an editor.

# EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

# ON and OFF the SCREEN

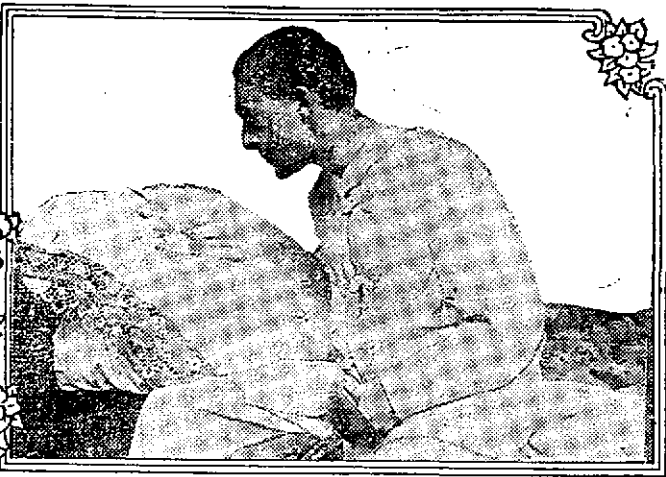

MARIN SAIS.

THE "Thumb Print" is a new four part release.

This is a detective drama, where the whole plot centers around a thumb print, which is discovered when a certain banker is murdered and robbed in his own library.

The plot is one of a very powerful nature and highest possible class of photography, combined with excellent acting and dramatic effect.

Big, hungry Joe Brown is jailed for threatening wealthy Preston Senall in "The Coward and the Man." He saves the warden's life during a prison riot and stumbles upon the victim of Senall's swindle when he gets out. Then he has an opportunity to force the greedy Senall to make restitution to the poor widow.

SCENE FROM "THE THUMB PRINT."

Marin Sais is now playing leads in big pictures every few days and acquires herself with great credit.

Having seen a beautiful painting of the old slave market in Cairo, Bunny, the henpecked property man in a small theater, falls asleep and dreams he is a millionaire, outbidding a crowd of Arab sheiks for a bevy of beautiful slaves like the ones he saw in the picture. Of course there are all sorts of comic consequences.

"The Road to Plinfaide" tells how two lives left the broad highway of restless desire and luxury.

Having but two months to live, the elder brother shouldered the other's crime. The rough life of the prison, coupled with fresh air and hard labor, brought health and the desire for freedom. His escape made good, he came face to face with his former sweetheart. Through her efforts he was reinstated in society.

"Judge Not!" is a magnificent four reel subject soon to be released. The story has a distinctly out of the ordinary plot and is conspicuous for its interesting situations and swift action. A prosecuting attorney, subject to spells of temporary aberration, and a dear friend of a judge, murders the judge one evening while strolling down the street. Another man is accused, and the prosecuting attorney, with no memory of his deed, throws himself vigorously into the prosecution. How a scientist untangles the skein of destiny is not only unusually interesting, but highly scientific.

"Buddy's First Call" will remind you of your first attempt at being a real beau and calling upon a young lady for the first time. Buddy's experience is perhaps a little different from ours, but it is just as embarrassing and a great deal funnier. He makes the mistake of calling on a girl who has a mischievous sister.

## Climbing Roses Make Home Very Attractive

Climbing roses are a valuable aid to the man who is interested in having his home in attractive surroundings. With a fine lawn, artistically massed shrubbery, and a wealth of vines clambering over the porch and roof, many a plain and unpretentious house has been transformed into a most attractive dwelling place. The U. S. Department of Agriculture has a rose garden on its ground and many experiments have been made in the treatment of the various kinds to secure the best results.

After the blooming season of climbing roses is over in June, the Department's landscape gardener advises that shoots should be pruned so also throw the growth of the plant into the new wood that bore no flowers this year, for this is the part of the plant that will bear next year. When a trellis is low (6 or 8 feet high) it is a good plan to cut off the shoots that have borne flowers this year clear to the ground.

Most people in following this advice may feel that they are ruining their bushes to cut them back so severely, but the young shoots that they have started about the roots will surprise them by springing up with wonderful rapidity. Each bush will probably put forth several new shoots that will grow as long as those cut or one shoot will grow much longer. In either case the trellis will soon be covered again. One shoot in a Washington garden last year grew 20 feet after the bush had

been cut down in this manner.

In the case of a high trellis a different method must be followed. The renewal of wood must begin from a point higher up instead of from the roots as the growth of a bush is not enough to replace all its top on a high trellis if required to grow so far. Only so much of the old wood should be removed after the flowers have bloomed as will enable the new shoots from the end of the remaining portion of the stalk to replace the old growth. About 4 feet is a safe measure of the amount that may be taken off.

Those who have grown climbing roses as a screen on their porches, in order to insure a fine bloom the coming year, will do well to follow the advice as given for the higher trellis. In other words, about 4 feet of the old stalks that have bloomed should be cut off immediately after the blossoms are withered. The foliage will recover within a very short period and continue to screen the porch and next year an abundant crop of blossoms will be assured.

# THE GEM

FLORENCE LAWRENCE and MATT MOORE in "LITTLE MAIL CARRIERS" Victor Two Parts

A very entertaining picture, featuring Flo as a mail carrier, dressed in boy's clothes and Matt, as the city man who takes her to his hunting lodge when she is injured. The snow storm and the general atmosphere are very pleasing. The story is very strong and will hold interest from start to finish.

ADAM RICHLEY,  
CHESTER PECK,  
Committeemen.

The new tariff law bringing about  
the consequent reduction in tariff  
schedules is felt more in the eastern  
manufacturing centers than else-  
where and it is noticeable first. The  
Tribune of Providence, R. I., re-  
counts some of the damage brought  
about by the new law as follows:

The destructive effect of the new  
Democratic tariff on the industries of  
Rhode Island appears in visible form  
in this year's assessed valuation of  
such property reported recently by  
the board of tax commissioners to  
the general treasurer for his collec-  
tion of the revenue therefrom.

Last year the corporate excess  
value of the state's manufacturing,  
mercantile and miscellaneous cor-  
porations was \$198,107,928.65; this  
year it is \$135,688,931.58. These  
values, which are the values of the  
stock of these corporations over and  
above what is tangible in their plants  
and merchandise, are obtained from  
sworn statements by the responsible  
managers, verified by the tax com-  
missioner, and may be accepted as  
fair measures of the prosperity of  
the state's corporate industries.

This loss of nearly two and a half  
million dollars in the last twelve  
months means, therefore, that since  
the new tariff got into full operation  
the industries of Rhode Island have  
lost just that much in money-making  
capacity—in other words the Demo-  
cratic schedules of customs duties

have in one short year taken from  
the state that much wealth. It is not  
only the owners of this industrial  
property who suffer; it is the state  
treasury also, and hence the service  
which the state government can give  
to the people.

That it is a tariff hostile to domes-  
tic industry that has caused this loss  
admits no question. With imports of  
cotton cloths doubled under the Wil-  
son-Underwood law, as from \$721,-  
992 in value in March, 1913, to  
\$1,402,071 in March, 1914, and with  
imports of woolen and worsted cloths  
increased in value at the rate, for  
example, of from \$328,974 in March,  
1913, to \$1,396,910 in March, 1914,  
it was inevitable that Rhode Island  
mills should be less prosperous and  
Rhode Island mill stocks less valu-  
able.

The new Democratic tariff has al-  
ready stopped the increase of wealth  
in Rhode Island; continued in opera-  
tion indefinitely it would mean the  
industrial ruin of the state.

### Editorialettes

A Richmond newspaper has open-  
ed a firm employment agency for  
the several hundred men in what  
town who have been hit by the  
"psychological" business depres-  
sion. But why, kind sir, should  
there be something to relieve a con-  
dition that exists only in the mind?

It is hard to convince a man with-  
out a job and a good meal in pros-  
pect that this psychological business  
is to blame. He is, if he has any  
brains, at all, certain that it is a  
problem of the stomach and not the  
mind. And, of course, a man with-  
out brains couldn't deal with this  
"psychological" stuff.

We note by the wires that trains  
carrying hundreds of men to the  
wheat fields of the midwest and  
are leaving daily. We do not like  
to be a bit presumptuous, but there  
is no chance, we guess, of us be-  
ing charged with being a part of

a combination to force agitation  
bringing about business depres-  
sion—however, and notwithstanding  
all this, where are all these men  
coming from? If they were thrown  
out of a job by the "psychological"  
dope, are they going to take a psy-  
chological job? You Democrats  
with the psychological minds may  
reason that out for yourself.

"A summer vacation on wages."  
is the way Secretary Wilson of the  
United States department of labor  
termed work in the harvest fields of  
the west and midwest. We would  
like to see a man who ever pitched  
any hay or wheat convinced of the  
vacation feature of such work.

### What Our Neighbors Are Talking About

#### Drafting Roosevelt.

(Anderson Bulletin, Dem.)

Those ardent Progressives who  
insist that Col. Roosevelt must run  
for governor of New York have  
sentiment on their side; but the col-  
onel has figures on his side, and fig-  
ures are more convincing than senti-  
ment.

In 1912 Col Roosevelt, as the Pro-  
gressive candidate for president,  
polled only 390,021 votes in this  
state, as against Mr. Taft's 455,428  
and Mr. Wilson's 655,475. Mr.  
Straus did better than the colonel,  
but as the Progressive candidate for  
governor he had only 393,183, to  
Mr. Hedges' 444,105.

Colonel Roosevelt had more popu-  
lar strength in 1912 than he has in  
1914, and the Progressive party has  
steadily disintegrated since the 1912  
election. In 1913 Judge Hand, the  
Progressive candidate for chief jus-  
tice of the court of appeals, polled  
195,097 votes; yet there was no  
better candidate in the field. Against  
Judge Hand's 195,097 votes, Judge  
Werner, the Republican candidate,  
polled 597,357. The Republican ma-  
jority over the Progressives exceed-  
ed 400,000.

The 1914 enrollment offers still  
less encouragement to "Colonel  
Roosevelt to stake his political future  
on the outcome of the election in this  
state. The Republican enrollment is  
526,000 and the Progressive enroll-  
ment is only 111,000. Taking these  
figures as a fair indication of the  
relative strength of the two parties,  
what chance would Colonel Roosevelt  
have of carrying New York as the  
Progressive candidate for governor?

### PRIMARIES TELL A PLAIN STORY

#### Chairman Will H. Hays Points Out

That Vote Cast Recently Indi-  
cates Political Trend.

#### TOTALS ARE ENUMERATED

Not in Years Has Republican Orga-  
nization Been in as Good Fight-  
ing Trim So Early in Year.

(Special to the Daily Republican.)  
Indianapolis, Ind., June 15—Will H.

Hays, chairman of the Republican  
State Committee, in discussing the  
political situation in Indiana today,  
said:

"Results of recent primaries in var-  
ious sections of Indiana tell a story  
plainer than words can tell of the  
direction in which the political tide  
is drifting in Indiana. The figures of  
the primary voting in Lake, St.  
Joseph and Allen counties on the  
north, Marion, Henry and Randolph  
in the central part of the state, and  
Vigo, Lawrence and Manderburg in  
the west and southern part of the  
state reveal almost startling Repub-  
lican gains and corresponding Pro-  
gressive and Democratic losses.

"In Lake county, in which is lo-  
cated the industrial city of Gary, the  
Republican vote in the recent pri-  
mary totalled 6400 as against  
5176 cast at the presidential election  
in 1912. In that primary the Demo-  
cratic vote was but 2250 as com-  
pared with 5136 in 1912 and the  
Progressive vote dropped from 5659  
in 1912 to 660 in the primary.

"In Lawrence county last Satur-  
day the Republican vote was 350  
larger than the Republican vote in  
the primary in that county in 1912  
and the primary in that county that

year was held long before the open  
division developed in Republican  
ranks. The Democratic primary vote  
in this county dropped off 20 per  
cent, compared with the 1912 vote.  
The Republican primary vote in  
Henry, Randolph and other counties  
carried by our opponents in 1912 was  
large enough to return them all to the  
G. O. P. column this year by sub-  
stantial pluralities.

"The Republican organization has  
taken the position that it does not  
care how a man voted in 1912, nor  
his reasons for so doing. If he is  
with us today he is a part of us and  
has an equal voice in the party's  
affairs. That former Progressives  
are approving this spirit and are now  
again working with us is indicated  
by a comparison of this year's Pro-  
gressive primary vote with the vote  
cast by the Progressive party in 1912  
in the counties containing the cities  
of Indianapolis, Ft. Wayne, South  
Bend, Gary, Terre Haute and Evans-  
ville, the largest in the state; show-  
ing a loss of over 90 per cent.

"Out advices indicate a widespread  
dissatisfaction throughout the state,  
both in industrial centers and in the  
agricultural sections with the work-  
ings of the Democratic tariff bill. Re-  
publicans are active all along the  
line and there is ample basis for the  
feeling that is growing that there is  
to be a political upheaval in Indiana  
this year. There is considerable dis-  
satisfaction among Democrats over  
the reckless and extravagant man-  
agement of the state's financial af-  
fairs by the Democratic adminis-  
tration and there is a growing feeling  
of a resentment among Wilson-Bry-  
an Democrats over the political  
manipulations of the Taggart Fair-  
banks Democratic machine. The last  
Democratic legislature raised the  
state tax levy and this will prove an  
important factor in the 1914 cam-  
paign.

"Not in years has the Republican  
organization been in as good fighting  
trim as early as it is this year. The  
attendance at the county had con-  
gressional conventions is wonderful  
and the enthusiasm manifested is a  
revelation."

## CHAUTAUQUA TO SET NEW RECORD

Continued from Page 1.

over as "The Apostle of Efficiency," will lecture at two-thirty o'clock. Wiggam is heralded as a great lecturer. He was raised on science and imbibed its fierce love of truth. He is a graduate of all the best colleges—the farm, the miner's pick and shovel, the essayist's, the chemical control of a sugar factory, campaigner when a boy for a political party, road salesman, mine superintendent, newspaper reporter and editorial writer on a great metropolitan daily.

Tuesday afternoon Lulu Tyler Gates, a celebrated reader, will give the program and at night Strickland W. Gillilan, the well known Hoosier humorist, will entertain the audience. Whenever the name of the Lulu Tyler Gates is mentioned, there comes the suggestion of the best on the chautauqua platform. She has a charming repertoire of monologue entertainments that are decidedly out of the ordinary. The committee has looked forward to the time when it would be able to include her in the week's program.

Gillilan, the humorist, is too well known in Indiana to need any introduction. His brand of humor is the kind that may be pronounced fun without any fear of contradiction. He is a contributor to several newspapers and many of the leading magazines. "Off Agin, On Agin, Finnigan," made him famous, and he has been able to retain it and add to it with each successive appearance.

Wednesday comes Weber's band and Thursday for two days Norton's Chautauqua orchestra and band. It will give the prelude during the two days' stay and will give the complete program Thursday night. The company is under the direction of William Wellington Norton, director of music at the University of North Dakota. There are ten college-bred men in the orchestra, and they are everyone of them talented soloists. They can give a most varied program, consisting of orchestra and band numbers, male horn and string quartets and duets as well as innumerable solos.

Thursday afternoon Balmer's Kafir boy choir will be the attraction. This is pronounced more educational and instructive than purely entertaining. The choir is so much out of the ordinary for the chautauqua platform. Balmer first brought together ten years ago five boys representing four of the main races of South Africa, and ever since his organization has been one that has triumphed everywhere. The boys have appeared before many of the crowned heads of Europe. They recently returned from a most successful tour of Great Britain.

Friday will be the equal of Wednesday in many ways. In the afternoon, Lincoln McConnell will lecture and in the evening Booker T. Washington will lecture. Neither of these celebrities want for introduction here as their field of endeavor is so well-known. McConnell has entertained and instructed many audiences here and his return will be welcomed.

Booker T. Washington is the foremost man of his race, one who has brought it much credit. It has been considered quite a stroke for the committee to get him on the program here.

Saturday the Oxford company, in song and drama, will come for the remainder of the chautauqua. They will give the prelude and a full program Saturday night. They will present the Mikado on that occasion. This company is said to be the peer of any musical organization

of its class before the chautauqua public. It is pronounced better than the Kellogg-Haines Singing Party which was here two years. Saturday afternoon Col. Bob Seeds will lecture. He has a humorous lecture which carries a note of seriousness that makes it at the same time instructive and interesting.

Wirth Lowther will be the platform manager this year. He was here half the week last year and gave universal satisfaction. He will lecture on Tuesday, Thursday, Friday and Saturday afternoons. Since he was here last year, Mr. Lowther has become pastor of the Christian church at Columbus, Ind.

## FIRE IN BOARDING HOUSE KILLS SEVEN

Score Are Burned and Another Score Badly Injured by Jumping to Sidewalk Today.

### BUILDING NOT IMPROVED

(By United Press.)

Milford, Mass., June 16.—Seven men were burned to death, a score were burned, severely fatally, and another score badly injured in jumping from windows in a fire early today which swept the tinder box boarding houses of Peter Copalan.

The building was built in 1860 for a shoe shop. It was without fire escapes, fire extinguishers or watchmen, with corridors only five feet wide and window sills two and a half feet wide. Young Armenians working in the paper mills swarmed in the place. It went up like gunpowder.

## TELLS OF LATEST METHODS

Macaronia Dealers Hear Interesting Addresses at Convention

(By United Press.)

Chicago, June 16.—Latest improved methods of turning out macaronia and sleek-looking noodles were discussed today by the National Association of Macaronia and Noodles Manufacturers of America, who met at the Hotel Sherman.

B. R. Jacobs of the Dominion Grain Research Laboratory, Winnipeg, Can., explained how chemists differentiate between water noodles and egg noodles. He went into an exhaustive history of the noodles business. Dr. E. F. Ladd of the North Dakota Agricultural Experiment station was to tell the manufacturers late this afternoon what kind of grain make the best macaronia.

## WILL MEET IN COLUMBUS

Many Prominent Men on Municipal League Program

(By United Press.)

Columbus, Ind., June 16.—The annual meeting of the Municipal League of Indiana, to be held here July 7, 8 and 9, will be addressed by many people of prominence in various sections of Indiana. Some of the subjects discussed and the speakers are: "The Filtration of a City's Water Supply," by S. W. Potter of Washington, Ind.; "The Three Mile Road Law as it has Affected Us," by J. C. Hleron, city attorney of Kokomo; "Municipal Markets," by Mayer Robbins of Richmond; "The Betterment of the Race," by Dr. J. N. Hurty, state health commissioner; "Track Elevation in Smaller Cities," by John A. Gavitt, city attorney of Hammond; "Severing a City," by H. T. Watts, city engineer of Vincennes and "Municipal Ownership of Public Utilities," by Mayor McCarty of Washington, Ind.

The picnic which was to have been held for the primary department of the Main Street Christian Sunday school Thursday afternoon has been postponed.

## ONLY ONE WAY TO HAVE DEMOCRACY

Speaker at Convention of Women's Clubs Points out Needed Reforms in Government

### CANNOT BE RUN BY PROXY

Director of Wisconsin University Extension Division Discusses Public Questions

(By United Press.)

Chicago, June 16.—"Only as we citizens go to school to each other, using the common schoolhouse as the Old New England Town hall was used, and using the school principal as the old New England town clerk was used, can we realize democracy, and find the resolutions of our problems industrial, interracial, and intersex," said Edward J. Ward, of the University of Wisconsin at this afternoon's session of the Biennial Convention of the Federation of Women's Clubs.

Mr. Ward is employed in Wisconsin's University Extension to promote the organization of the population of that state into one body for the all-sided and free discussion of public questions, for industrial co-operation and wholesome recreation.

"We have been providing for a few individuals, very well equipped and well named school buildings, the city halls, state houses and national capitol," said Prof. Ward. "We have given to this select few the privilege of going to school to each other in these buildings to study and discuss the problems of our living together. But this has not been self-government, for you can no more have self-government through representatives than you can eat a meal or take a bath or breathe, through representatives. Self-government is self-education and this cannot be done by proxy. We citizens must go to school to each other to prepare for the examination of our intelligence at the ballot box."

"In Wisconsin and now in several other states, the right of the citizenship to use the public schoolhouses as headquarters of deliberation is recognized."

"Civic Secretaryship, the Prime Ministry in a democracy, must be recognized and remunerated as public service. Normally this service under the citizens will be, as it should be, rendered by the men in each community who is now employed as the principal or director of the instruction of the children of each community. This is the essential next step."

## AUCTIONEERS IN SESSION

Convention of International Association Opens in Chicago

(By United Press.)

Chicago, June 16.—The best auctioneers that ever shouted: "Going, Going—Gone," flocked in the Hotel Sherman lobby today and swapped stories that would make David Harum blush. The dean of the tribe of auctioneers—Col. Cummings—was there and so were the prize auctioneers of several middle western states. Aside from the story telling, the auctioneers intend to transact some business in the two days convention of their international association. They will consider legislation that may be inimical to the auctioneers' business.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio. ### SHEER AND LACEY ARE THESE MID-SUMMER BRIDESMAIDS' FROCKS

As it is the mission of the bridesmaid to lend color and gaiety to the fête, her frock should be the very embodiment of youth and charm. This should not be difficult this season; materials are so sheer and designs so lovely.

Flowered chiffons, shadow laces and taffetas are perhaps the most favored of all materials for this purpose. Plain and flowered taffetas are combined with chiffon and lace and as illustrated in 8150, taffetas is often used to trim lace and chiffon frocks. This design is here developed in shadow lace flouncing which lends itself excellently to the tiered effect of the skirt. An underdress of the most delicate pink chiffon lends color to the frock and is repeated in the overblouse of taffetas. An odd, old fashioned looking, pinked ruffled edge-neck and sleeves of the overblouse and a bias strip of the taffetas, knotted simply in front completes the costume.

This design may be copied in size 36, with 7½ yards of 22-inch flouncing and 3½ yards of 36-inch material for the underdress.

The long waisted effect of the second frock is one of the season's novelties; it is youthful to a degree and charmingly suited to the summer wedding. Here a flowered taffetas is combined with a plain taffetas in a delicate shade of Nile green; this color repeats the predominant tone in the flowers and the chiffon of the sleeves.

For a girl of 18, this design requires 4½ yards of 42-inch material.

Taffetas are wide and are priced from about \$1.25 a yard and up.

### A PLAITED SKIRT AND A COMFORTABLE COAT FOR THE LINEN SPORT SUIT

One linen suit a summer is quite necessary in spite of the favor shown to the new rough finished cottons. There is something crisp and cool about it that is decidedly satisfying on a hot day.

This suit, 8288-8059 has a yoked coat, something on the order of a Norfolk, with large patch pockets, mannish collar and revers and a wide, stitched belt of the same material as the suit, which is pale blue linen. The skirt is box-plaited onto a three-piece hip yoke.

To copy this suit in size 36, 2½ yards of 42-inch material is needed for the coat (8288) and 6½ yards of the same width for the skirt (8059). The second costume shows a happy combination of crepe de Chine in the blouse, with a skirt of rough finished white cotton. These silk shirts are especially attractive for sports wear as they are cool and do not soil and crush easily and the rough cotton skirts are favored for the same reason.

Novelty buttons and the patch pocket on the skirt are the only trimming aside from the cut which is smart and new.

This blouse (8389) requires for size 36, 2¼ yards of 36-inch material; the skirt (7489) takes 3 yards of 42-inch material.

No. 8288, sizes 32 to 44.  
No. 8059, sizes 22 to 32.  
No. 8389, sizes 34 to 46.  
No. 7489, sizes 22 to 32.  
Each pattern, 15 cents.

To obtain either pattern illustrated fill out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

## THE RECALL

### How This New Political Panacea Operates in Colorado

By J. Feudner.

Unlike England, the State of Colorado is not bothered with suffragette demonstrations for the reason that the women have the right to vote. The city of Denver claims to be progressive and so it voted last year in favor of a "Commission form of government." And like most places where these new ideas are introduced they have the balance of these new-fangled political cure-alls, the "Initiative and Referendum and the Recall."

As long as I lived in Indiana where an old-fashioned and staid form of government controls the destinies of the people, I paid but little attention to these new political panaceas.

I have hardly been here in Denver two weeks and I have already run up against the "recall" proposition—or rather, it has bumped up against me. A few days ago, while sitting in front of the hotel, a most affable lady with a petition in her hand approached me and asked me whether I was interested in the recall of Commissioner Nisbet. I replied, "No, madam, I am a stranger in a strange land, and not being acquainted with the merits of the case I am not in a position to give your petition intelligent consideration."

The lady then went inside to see whether she could find some voters—either male or female—who were eligible to sign the petition.

I asked the lady to see the petition. It was in printed form and cited several grievances on which account Commissioner Alexander Nisbet should be recalled. Nisbet is at the head of the Commission of Safety, under whose jurisdiction is the fire department, the police department and the duties usually devolved upon a county sheriff.

One of the "unwritten" grievances against this officer which was not mentioned on the petition, was his dilatory prosecution of the kidnappers and assailants of a Baptist minister who lectured on Catholicism in Denver.

It will be remembered by those who read the papers that on last April 5th Rev. Otis L. Spurgeon, after delivering his lecture in Denver, was taken out of the hotel by several men, put into an automobile and taken outside the city where he was given a severe beating. Several parties were finally arrested, but it is doubtful whether anything will be done in the matter.

At a special election held on Feb.

## WOMAN COULD HARDLY STAND

Because of Terrible Backache. Relieved by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered from displacement and inflammation, and had such pains in my sides, and terrible backache so that I could hardly stand. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering woman."—Mrs. HARRY FISHER, 1642 Juniata Street, Philadelphia, Pa.

Another Woman's Case.

Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down, and backache, until I could hardly stand and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIEL LAWSON, 126 Lippitt St., Providence, R. I.

Danger Signals to Women are what one physician called backache, headache, nervousness, and the blues. In many cases they are symptoms of some female derangement or an inflammatory, ulcerative condition, which may be overcome by taking Lydia E. Pinkham's Vegetable Compound. Thousands of American women willingly testify to its virtue.

14, 1913, the electors of the city of Denver declared for a commission form of government. Under this government all the legislative, executive and administrative powers and duties are vested in five departments, as follows: Department of Property, Department of Finance, Department of Safety, Department of Improvements and Department of Social Welfare. The heads of these departments are designated as "Commissioner of Property," "Commissioner of Finance," etc., each with a salary of \$5,000 a year.

The initiative and referendum and recall was adopted as a law in the State of Colorado on November 8, 1910.

The recall has been defined as a "legal provision for the retirement of a public officer before his term of office expires, if he has forfeited the confidence of the voters." The manner in which it is employed varies considerably in the different states, but the usual form of procedure is as follows:

A petition containing a brief statement of the charges preferred against the official sought to be recalled, and signed by a fixed percentage of the voters from the district from which he was elected, is filed with the proper recording officer or clerk.

If the petition is properly presented and bears the requisite number of signatures, within a stated time an election must be called at which the officer in question must stand for re-election, usually competing with other candidates for the same office. In most cases a majority vote decides the result.

In the state of Colorado 25 per cent of the votes cast at the last election is required on the petition of recall, and all elective officers are subject to the recall.

Legislation providing for the recall has been adopted in the states of Oregon, California, Arizona, Nevada, Colorado, Washington, Idaho and Michigan. In the first five states mentioned the recall applies to judicial officers also, and in Colorado it has been extended to the recall of judicial decisions.

The right of petition for recall is essentially a haven for minorities. There is no minority too small to make itself heard in this way. But once the petition becomes a self-executing instrument, as under the recall system, a question arises as to how large a minority need be to gain the official recognition which will set the machinery of removal to work.

Another question is, can a community be maintained at a high pitch of anger, enthusiasm or interest to the detriment of a public officer for a period ranging between three weeks and three months? Because it takes some time to procure the signatures in a large city, even if done systematically. As in this present case in Denver, the lady mentioned made a house-to-house canvass and not alone looked up the male voters but the female voters also. But it is presumed that in order to expediate matters, the city was divided into districts and each district had its canvasser.

After the petition has been duly signed and filed then some time elapses during which time the signatures are examined and the election ordered.

When the process of petitioning is over the officer under attack is given an option between resigning and becoming a candidate for the job of filling his own office for the remainder of his unexpired term.

The petitioners, who often constitute a more or less distinct faction, or temporary party, proceed to nominate an opponent by petition.

Upon the ballot provision is usually made for a statement of the reasons for the sought-for removal and the counter statement of the officer, justifying his course in office. These recitals, as in the original petition, because of their brief and general character, may take on a decided political color.

As to the sufficiency of the final verdict of the electorate, most of the

laws require that the successful candidate shall receive a majority of all votes cast.

The proposed recall of this municipal officer, is the first time that the machinery of the recall proceedings have been put in motion in Denver and since Commissioner Nisbet is a Democrat, the recall petition is signed by Republicans with alacrity. Of course it is impossible to foretell at this time what the out-come will be.

While the recall may be a good thing, affording the voters an opportunity to oust any inefficient, incompetent or derelict officer, yet it seems to me that the system will keep a county or city in a state of constant political turmoil, with frequent elections, which in themselves are very expensive.

For instance, petitions are being circulated at the present time by the Denver Convention association for an amendment to the state constitution providing that, after any initiated or referred measure has been

voted upon by the people, it shall not be again initiated or referred until after the expiration of six years.

"At present," said the secretary of the convention association the other day, "any initiated or referred measure which is defeated at once election can be submitted again two years thereafter. Now, our association is in no way opposed to the principle of direct legislation, but we feel that once the people have spoken on initiative measures, six years, instead of two years, should elapse before they are asked again to express an opinion on the same question. Under the two-year provision the constitution of the state is practically all the time in the melting pot. Our political condition is one of perpetual uncertainty. We never know 'where we are at.' And it is to remove this constant flux in our political and legislative affairs that our association is now presenting this petition for the substitution of the six-year interval for the two-year interval."

## SHE WANTED HIS MONEY, NOT HIM

Old Man, Young Girl and an Ardent Lover Forms Triangle of Divorce Suit in Anderson

### JUDGE GRANTS INJUNCTION

(By United Press.)

Anderson, Ind., June 16.—An old man with money, a young wife with looks and young lover with ardent manner—that triangle according to a divorce complaint filed here by William Walters, the wealthy old man, doesn't work towards marital bliss. Walters' complaint sounded so bona fide to Judge Ragol that he granted Walters' petition for a temporary injunction against Jack Carmody, and as a result that young man with ardent manner may not visit the Walters home until the divorce case is decided.

Walters, who is a farmer, sets forth a new schedule for household expenses. The high cost of living suddenly became very, very high when he took unto himself Miss Martha Davis to be his dutiful and loving wife, he says. Miss Davis, who was 22, declared with heaving bosom that she dearly loved William Walters, 40. After the wedding, he alleges, he found she dearly loved his money.

They spent \$1,000 for household furniture, \$5,000 for a new home, \$800 for carpets, and bought a new automobile. Mrs. Walters' expenses averaged \$150 a week, he declares, and now she has \$2,000 of his money in the bank.

But Walters says the worst of all is she loves Jack Carmody.

She Moore was able to be taken from Sexton's sanatorium to his home south of the city Monday. He is making gradual improvement.

## DEFENSE HAS LONG LIST OF WITNESSES

Probable That Vandenberg Case Will Not be Concluded Before Saturday—Plaintiff Rests.

### EFFORT TO PROVE HIM INSANE

The case of the Kokomo Trust company and William H. Turner against Moses and Mary Vandenberg of Knightstown was slowly grinding away in the circuit court today before Special Judge Blair of Shelbyville. Notes in the sum of \$7,000 and foreclosure of a mortgage are demanded. The case will probably not be concluded before Saturday because of the long list of witnesses which the defense has yet to present.

The plaintiff rested its case yesterday, the first day of the trial. The defense began the introduction of evidence this morning, and the burden of its case seemed to be an attempt to prove that Vandenberg was a person of unsound mind. It was brought out through witnesses that Vandenberg was sent to the insane asylum and was later released and was interested in the automobile business. A guardian was recently appointed for him. The defense has several depositions to introduce.

## DIES IN HOSPITAL AT INDIANAPOLIS

Mrs. Charles Crosby, Age About 60 Years, Expires of Complication of Diseases There Today.

### WAS RELATED IN RUSHVILLE

Mrs. Charles Crosby, age about 60, a resident of Milroy, died this morning at 4:15 o'clock at the Methodist Hospital in Indianapolis. Her death was due to a complication of diseases. Mrs. Crosby has been in the hospital for several weeks and death was expected.

She has been a resident of Milroy for a great many years and was a well-known woman. She was a member of the United Presbyterian church. Her body was brought home this afternoon. The funeral arrangements had not been completed at a late hour this afternoon, but will probably be held Thursday and burial will take place in the Milroy cemetery.

Mrs. Crosby is a sister-in-law of Ed Crosby of this city, and is survived by her husband, and four children. Mrs. Crosby was married first to Mr. Frazier, who is now deceased, and two children were born to them, Mrs. J. D. Farlow and John Frazier. The two children by her last husband are Mrs. Earl Harcourt and Reed Crosby.

### Piano Strings.

The tone of a piano or of an individual string of the same will be higher in a cold room than in a warm one. The reason is not far to seek. A stretched string gives out a certain pitch only when it is of a certain length and a certain tension. This is shown in the laboratory by hanging weights on a string and plucking it. The more weight hung on the string the higher the note given out. Now, the strings of a piano are metal wires, all of which contract when cooled. As they are fastened at both ends, however, they remain the same length, but just tighten up—that is, the tension increases just as if an extra weight were hung on the end. Of course, the effect is not great save in a very cold room, but even a small variation in tone may be detected by a good musician. This is probably one reason why certain prima donnas always insist on singing in a room of a certain temperature, which, of course, is the temperature at which the piano was put in adjustment with their voices—or ought to be.—New York World.

### Cyrus a Canal Builder.

In speaking of the river regulations of the ancients Sir William Willcocks, the noted English engineer, said: "Cyrus the Great controlled the Gyndes, a tributary of the Tigris, in a truly original manner. Babylonia was already peopled and lands were needed for his Persian troops. The Gyndes discharges 40,000 sectional feet and runs thirty feet deep in a sandy and mobile bed. He could build no regulator, so he dug thirty canals, divided the waters of the river among them, closed the river by an earthen dam and completely controlled it. As he could never have induced his wild soldiers to dig these canals for any useful purpose, he took advantage of the fact that his favorite horse had been drowned in the flood and urged his soldiers to dig the canals and dissipate the waters of the river in such a fashion that it could never again drown a horse.—Engineering Record.

### Amusements

At the Gem tonight Florence Lawrence will be featured in a two part Victor drama. Matt Moore is also in the picture and plays the part of the good Samaritan. The story is very strong and will hold the interest of the audience from the start. The other picture is a comedy, "Caroon by Mayers" and it is said to be a remarkable picture.

Alice Joyce will be featured tonight at the Princess in a two reel picture "The Cabaret Dancer." Tom Moore and Alice Hollister are also in this picture, which is a powerful drama. The other picture is a comedy, "The Bully's Doom" and is an excellent Lubin comedy.
